MAY REDUCE HOP ACREAGE

The proposition to form the Pacific Coast hop union having fallen through there is now an effort on foot to reduce the hop acreage, and thereby reduce the output each year. The plan is to get 80 per cent of the growers to agree to work but one half of the acreage in hops. If this can be done it will cut down the output 120,000 bales on this coast and possibly enable the growers to get some thing for them. As it is now hops are worth very little with little prospects of a change for the better. Last week C. C. Donovan purchased over a 1000 bales of hops for 5½ cents per pound. There are over 2300 bales of old hops on hand in this county now, and if the output of the coming crop is not reduced there is little hope for much of a price for the 1908 crop. Frank Cunningham who was a director of the proposed hop growers' union is urging the growers to work only half of their lands. He thinks that it is possible to get 80 per cent of the growers to agree to this plan.

USES "BIG STICK" ON HIS NEIGHBOR

Daniel G. Coy was arrested yesterday charged with an assault with a deadly weapon upon the person of his neighbor W. J. Rains, an old man. From what could be gathered from the witnesses it seems that the two neighbors started home together, Mr. Coy accepting an invitation to ride with Rains. They began to discuss the Japanese question, and got out at the "Twin Oaks" and had a drink. Mr. Coy did not like Roosevelt's attitude on the question and said so very bluntly. Mr. Rains thought that Roosevelt was a very good man. Here Coy got mad and refused to ride further with his neighbor and proceeded to walk. Rains caught up with him and said "There's no use in us falling out over this matter, get in and ride." Coy was angry and made a swipe at Rains with his big club of a walking stick and caused the horse to run away. Rains finally stopped the horse and waited for Coy to come up and get in the rig. Coy came up with blood in his eyes and lit into Rains with the big stick, and beat him up unmercifully. Rains was taken home with a four inch laceration on his head and a cut artery on the wrist that almost caused him to bleed to death. He is still in bed and has had Coy arrested on a charge of asasult with a deadly weapon. Coy is a grand army man and a republican and Rains is a democrat.

SECRETARY OF STATE ISSUES BLUE BOOK

Secretary of State Curry has issued the Blue Book for 1907 and it is the largest and best one ever issued so far. It contains about 850 pages of very useful matter and will be read with much care by all who are lucky enough to secure a copy. It is a walking encyclopedia of information, so to speak, and reflects great credit upon Secretary Curry and his assistants in the work. This office acknowledges a copy, in addition to the number allowed members of the legislature.

Young Couple Marry

Last Sunday Warren M. Fugett and Miss Alice F. Swasey were united in marriage at Talmage by the Rev. Pettis. The young people are employed at the state hospital and are very popular. They left the same day for San Francisco where they will spend a short honeymoon. Upon their return they will continue to make their home at Talmage.

Mrs. Jessie Schmitt entertained a number of her friends at the home of Mrs. J. L. Brown last evening. A very enjoyable time was had. Mrs. Schmitt leaves for home in the city next Sunday. She made many friends while here and renewed old acquaintances.

DECLARE DEEDS WERE FORGERIES

Writing Experts Give Testimony in Lamb-Slingerland Case

The time of the superior court has been occupied this week with the Lamb-Singerland case, and considerable inerest is being manifested in the case, and people of renown have been called in as experts to testify. Theodore Kytka, the celberated writing expert, has been here to give testimony. Mrs. Annie Slingerland made a will dividing her property among her relatives. She afterwards deeded 23 acres of land to her brother, R. W. Lamb; and a short time thereafter deeded the entire property to her brother. The other relatives are trying to have the deeds set aside, in order that the will may dispose of the property, and claim that undue influence was used, and that the signatures to the deeds are forgeries.

Dr. Hopkins made out the deeds and claims that they were properly signed by Mrs. Slingerland just before her death. Here is where the expert testimony was used, and Theodore Kytka, the famous hand writing expert, was called and testified that the handwriting was that of Mrs. Slingerland. J. C. Ruddock and others were called and testified that the signatures were not genuine. It is quite a difficult case and Judge White is hearing the testimony, and is giving both sides the widest of latitude. Mannon and Mannon represent R. W. Lamb, while the other side is represented by Thomas, Pemberton & Thomas and Robert Duncan. The continuation of the case has been postponed on account of the sickness of Mrs. White.

CREAMERY WILL OPEN MONDAY

As heretofore announced the new creamery is to open for business next Monday. J. D. Green, the manager is now on his way with his wife. They come from Selma on account of the desirability of our climate over that of the San Joaquin valley. Mr. Green is enthusistic over the prospects for the success of the creamery and he expects to visit our farmers personally and assist them all he can to get started right in the dairy business.

The building in now completed and neatly painted with all machinery ready to start. We note the opening of this line of business with pleasure because it is only one of many enterprises that could be inaugurated that would improve the town and community.

Mrs. J. Q. White is Very Sick

Judge White received word Wednesday from St. Helena that his wife was very much worse than she had been for sometime, and that she might pass away at any time. The judge adjourned court and hastened to the bedside of the loved one. The Singerland case and several other cases that were being heard by the judge have been postponed indefinitely. It is sincerely hoped that Mrs. White will improve rapidly.

Little Boy Injured

The little boy of Frank Howell was injured this week at the home in the country. The little fellow fell out of the buggy and struck his chin on the wheel and cut a painful gash in its chin. Dr. Lathrop was called and attended to the wound and the little one is all right now.

Return Home

Frank M. Cunningham and bride returned Monday evening from their honeymoon, and took up their residence at the Cunningham home east of town. The young people are very popular and have been busy receiving the congratulations of friends ever since their return.

B. C. Cosgrove went to the city this week on busines and pleasure.

IROQUOIS CLUBS ELECT OFFICERS

Senator Sanford is Elected Grand Sachem of the State League of Democratic Clubs

The State League of Iroquois Clubs met in Native Son's hall, San Francisco last Saturday and elected officers for the ensuing year. Mendocino county was well represented at the conference and fared well in the election of officers in the afternoon. Senator J. B. Sanford was elected Grand Sachem of the league for the coming year and will have charge of the work to be mapped out during the Bryan campaign. J. C. Ruddock was honored by being selected as one of the committee on organization, being well fitted for that work.

Those in attendanec from this county were J. B. Sanford, J. C. Ruddock, P. Connolly, J. C. Lane, H. B. Hickey, C. A. Ornbaun. All took a prominent part in the deliberations of the body. The State Central committee also met the same day, during the recess of the clubs, and selected Fresno for the place of holding the next state convention, the time being set for Monday, May 18th. Mendocino county will be entitled to ten delegates. The state committee and the League also passed resolutions favoring the nomination of W. J. Bryan for the presidency.

In the evening the San Francisco Club entertained the state league delegates by giving them an elegant banquet at Jack's on Golden Gate avenue. It was a very swell affair and was largely attended by prominent democrats from all over the state. Toasts were responded to by Theodore A. Bell, Mayor E. R. Taylor, James D. Phelan, and Judge J. E. Raker. Taking it all in all it was one of the most enthusiastic gatherings held in years.

UKIAH GETS THE NEXT FIELD DAY

The Board of Managers of the S. M. A. A. L. League met in Santa Rosa Saturday. It is composed of President J. S. Sweet of Santa Rosa, Messrs, Evans of Petaluma, Wagers of Healdsburg, Hildreth of Ukiah, and Hasket of Willits. The resignation of the Santa Rosa athletic team from the organization was accepted. The request of the Cloverdale high school for membership in the league was granted. The next athletic meet will take place at Ukiah on April 18, and the appointment of a local manager for the day was left to the Ukiah team.

Street Improvements

The street committee have been busy this week removing the stone crossings along State and other streets. Crushed rock will be put in instead. It is said to be the intention of the trustees to plow up the streets soon and remove a great deal of the earth from the center thus lowering the street several feet. This certainly is a good move and will be appreciated by those who have to drive over the crossings.

Death of Mrs. Sibbas

Mrs. Julia Dunsing Sibbas died in this city last Thursday evening after an illness lasting for several months. She was 43 years old and had lived in this vicinity since childhood. She leaves a mother and several brothers and sisters to mourn her loss.

Wanted In Oregon

Sheriff Donohoe went up to Sherwood last week and got a man that was wanted in Oregon for a felony. The man was caught at Westport. He will remain in jail until the sheriff of Josephine county, Oregon, can get papers of extradition from the governor. The name of the man is A. Asher.

L. L. Grover was among the Potter valley citizens in town last week.

JUICE FROM POWER PLANT IS DELAYED

It was expected that the "juice" from the power plant would be here for use the first of March, but there will be a delay of two weeks probably on account of a leak where the pipe leaves the tunnel, and it was thought best to fix this defect now, rather than be bothered with it. The big pipe that is to carry the water goes into the tunnel 150 feet where a big cement collar connects it with the tunnel. The water gets in behind this collar or seeps through, or else the rocks are very porous, anyway the water leaks through at this place.

The leakage does not amount to anything, but it was decided that it would be best to shut down and fix the affair now. Every other detail was in perfect working order, and the water was of sufficient force to turn the machinery, and every thing worked perfectly. It is thought that the delay will not be long.

WOOL RETURNS COMING IN NOW

Owing to the failure of wool sales last October, both in Ukiah and Cloverdale, considerable Fall wooe was sent out on consignment. Thl Century Mercantile Co. of Berkeley, secured most of the business by virtue of the fact that they handle consignments exclusively and do not buy wool at all on their own account. Furthermore it is a co-operative company in its workings, and shippers get the benefit of full market prices at eastern woolen mills, less expenses of handling. Now that full returns for these fall wools have reached growers, it develops that results are extremely satisfactory, since the average net returns amount to 14 cents. Some of the best clips netted the growers 15 cents, after all expenses were deducted.

Among some of those who shipped are: Hiatt Bros., William Wallach, G. W. Vann, J. E. Singley, W. E. Parsons, R. T. Hutsell, L. Hong, Jas. Burris, C. W. Bradford.

These wools were all scoured by the Century Mercantile Company after being carefully sorted so as to make the grades demanded by the mills. Considerable freight was saved by leaving the dirt and grease in California. While this company maintains a strong selling force at all times in Boston, yet this year it sent a personal representative from California to push sales, being aware of the fact that it might be harder than usual to make sales promptly. These prompt and good sales bring the company into favorable notice, and many intend shipping this spring.

SUPERVISOR GIBSON BUSY ON HIS ROADS

Supervisor Gibson has been very busy the last two weeks putting the roads in good condition, especially those leading into town. The road scrapers have all been brought into use and the roads are now in excellent condition from town to River side and the scraper is now being put on the roads north of this resort. If the good weather continues for a few days all the roads will be in first class condition. Mr. Gibson is giving the matter his personal attention.

Will Build Brick Building

Robert McKinley has decided to commence the erection of his proposed building on State and Church streets. Frank LaPorte, the architect, has completed the plans and work will soon commence. The building is to be of brick and will be two stories high. There will be room for three stores down stairs and the up stairs will be a rooming house. The building will be an ornament to the town.

Harry Malpas arrived in town from Nevada this week and goes to Albion to accept a position with the Fort Bragg and Southeastern Railroad Company. He has a position as stenographer. His friends all wish him success.

CITY POLITICS WARMING UP

Political Pot has Begun to Simmer, Candidates Announce Themselves

Considerable interest is now being taken in the city election which takes place on the 13th of April. Interest so far has centered in the fight for Treasurer and Marshal. The Treasuryship is now worth $70 per month as other duties have been devolved upon that officer, consequently there is a scramble for the job. City Marshal DeMerritt, who has been invincible in his old position for years, has decided to switch and run for treasurer. Warren L. Brown and J. M. Owen also have an inclination for the place and have announced themselves in the running. So far it seems to be anybody's fight.

For Marshal, Frank Deyoe and B. H. Miller have already entered the arena and are after the elusive voter. Billy Ives also wants the job and it is said he will formarly announce himself soon. A number of others also have been mentioned in this regard, among whom are Ollie Cleveland, James H. Carothers, and Frank White.

Lee Cunningham has the field all to himself for city clerk and will doubtless be the only candidate, as he is considered invincible. So far no one has announced for trustee. It is said that the three trustees whose terms expire have all refused to run again on account of the disagreeable nature of the job. There is no pay attached to the office. All one gets is the everlasting gratitude and abuse of his fellow citizens for having an opinion contrary to some one else. A number of issues will doubtless be injected into the campaign, and as the affair warms up no doubt there will be some patriots announce their willingness to accept abuse for the next four years. The following names have been mentioned in connection with the trusteeship: J. L. Brown, J. W. Eversole, W. J. Hildreth, Wm. Peery, Julius Roller, W. H. Chessall, T. L. Carothers, I. C. Reed, J. C. Ruddock, A. H. Ewert. So far, however, on one has announced himself. The trustees whose terms expire are T. J. Weldon, T. A. Lucas, and H. Marks, all of whom did their best to give the city a good administration.

Some changes were made by the last legislature in the law relating to town elections. The last day to file certificates of nomination will be Saturday, March 14. All whose names were on the last printed great register and have not changed their residence will be entitled to vote. All others must re-register, and the last day will be March 19. There will be no voting on certificates as the county clerk is required by the amendment to furnish the election board with a supplemental register. A change in the hours was also made; the polls will be open from six o'clock a. m., until six o'clock p. m.

New Cyclery

Bert Van Nader has purchased the cyclery business from B. F. Hendricks and will occupy the building formerly occupied by Donohoe & Ganter, opposite the post office. Mr. Van Nader is well qualified to run this business having had experience in all of the departments. He will run a cyclery and machine shop and do bicycle, gun and general repairing, also tool sharpening. A share of the public patronage is solicited.

Knights Visit Willits

A number of the Uniform Rank of the Knights of Pythias paid a visit to the Willits lodge last Wednesday evening and installed the officers for the coming term and initiated three candidates. The Willits lodge entertained the boys royally, giving them a nice banquet. Those who went from here were Col. Abe Marks, G. L. Smith, L. C. McCloud, Walter Brown, Dr. G. W. Stout, E. E. Holbrook, Archie Layton.

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kindeys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. Put if you keep the filters right you will have no trouble with your kidneys.

Mrs. J. H. McPeak, 903 Chestnut, Ukiah, Cal., says: "Doan's Kidney Pills helped my husband a great deal. He has been suffering for a long time from kidney and bladder complaint, without getting relief from the many remedies he took. Doan's Kidney Pills were brought to his attention, he decided to try them and procured a box at the Mathews Pharmacy. He felt great relief after using them but a short time, continued and steadily improved. He is still using Doan's Kidney Pills and is much better in every way. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Neglected Colds Threatens Life

From the Chicago Tribune.

"Don't trifle with a cold, is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the changes of a surprise ordinary colds will be slight. But the ordinary light colds will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Cough Remedy. It is safe and sure. The great popularity and immense sale of this preperation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by J. R. Mathew's, Ukiah Cal.

Debate at Calpella

The Bon Ton Literary Society of Redwood valley, held its twelfth meeting Friday evening, February 7th, at the Calpella school hous . A nice program of about fifteen parts made up of recitations, songs, instrumental music, dialogues, speeches, and humorus reading, was rendered. The program was closed by a debate, the question for debate was: "Resolved that the abolition of slavery has improved the condition of the Negro." Fred Frank, Tillie Lorenz, and Fred Stewert spoke for the affirmative, while Guy Joshlin and S. G. Odell upheld the negative. The judges' after some discussion decided in favor of the affirmative, by a vote of two to one. The debate was a real good one, both sides advancing strong arguments. The affirmative showed careful study, while the negative presented some original and humorous argument. The school house was well filled.

MIDDLE COAST NEWS ITEMS

Items Gleamed From the "Beacon" For Our Coast Readers

The county road has become so bad that the settlers were compelled to turn out and make some by-roads in order that they might get to town and back the same day.

Coast ports have the prospect of being cut off from the city by the steam schooner route. The engineers are about to inaugurate their contemplated strike. The windjammers will probably look good to us for awhile now.

Elk correspondent to Beacon: The new railroad camp at the south fork has about 40 men engaged in work on the new grade. There is said to be three years' logging. The logs will be taken out principally with a device known as the "flier." A large cable is stretched across the gulch and the logs are carried to the cars thereby regardless of any road building. It is a cheap way to handle small timbers.

The L. E. White Company will operate a large tie camp near the old Tim Murray sawmill and Albert Schiller will be the predominating push.

Josh Inman will have charge of two tanbark camps and will have considerable road building to do to set the bark out. He will also have a new camp to build.

Controlling the Liquor Traffic

At a meeting of the board of trustees of Lakeport last week a resolution was passed that is somewhat of a novelty. The resolution names several residents of the town whom the board designates as persons to whom liquor must not be sold, and instructs the marshal to notify all retail liquor dealers that they must not supply the persons named with liquor on the penalty of revocation of their licenses.

SAD DEATH OF JOSEPH D. NOBLES

Joseph D. Nobles, of Whitehall, breathed his last at 8:15 p. m., February 14th, last, in Cloverdale. He had been undergoing medical treatment there for the effects of an injury he received about twelve years ago, and from which he continually suffered more or less until the end came. The injury he received was caused by being violently pitched against the side of a tree while on horseback, his knee being jammed with great force against it by the horn of the saddle, thus causing a very serious contusion of that joint. During the last few months his sufferings were great as if a complication of diseases had set in.

His remains were interred in Yorkville cemetery, February 16th, the attendance at the funeral to pay respects to the young man's memory being greater than at any ever held here. The services were very impressively conducted in the church by the Rev. Joseph Emery, of Cloverdale.

The subject of this sketch was born in Yorkville, Mendocino county, March 29, 1874, and grew up to man's estate received his education and spent his life there. As boy and man he was most exemplary in all his ways, and a general favorite with all who knew him. He leaves a widow, nee Laura Alice Ledford, and one boy, Lawrence, aged 6 years, who have the sympathy of the community in their bereavement. He is survived also by his father, four sisters, Mrs. C. Orubaun, Mrs. E. Livingston, Hattie and Alice Nobles, and by three half brothers and one half sister. A Friend.

HIGH SCHOOL NOTES

The Lyceum at the Ukiah high school rendered, last Friday, as on previous Friday afternoons, an excellent program. The principal thing was the debate, resolved, "That Country Life is perferable to city life." The affirmative was well represented by Ernest Ruddick and Dean Murphy, while the negative was represented by Orietta Gowell and Mary Kinlock. The girls won the debate of course, because we would all rather live in the city than in the country; that is, we, who do not pay the bills.

Two very important appointments were made during the afternoon by Edgar Dutton, the president of the Lyceum. Vincent Hildreth, the man of brawn, was appointed sergeant at arms, and Willie Chessal usher.

The boy's basketball team played a game with the Lakeport high school team. Of course the Ukiah boys won, although the Lakeport boys out weighed the Ukiah boys on an average of thirty pounds. Nevertheless the Ukiah boys won with a score of 28 to 0.

Listen! I came very near forgetting about the big doings for the 29th of this month at York & Cleland's hall. It will be a musical entertainment, while one can also refresh him or herself during the progrm with sweets and drinks. The suspicious people will be given a corner to themselves where they can confer with Madamoseille Bethalizza, as to their future lives. She is just here spending a vacation and is spending a few weeks in Ukiah for her health. A few pieces of music will be rendered during the evening by the Ukiah high school band. The admission will be 10 cents and the refreshments will be in accordance with your purse. Be sure and come.

ANOTHER PIONEER PASSES AWAY

On February 10th, at the age of 71 year and 19 days, a coast pioneer, Joel Pinkney Rushing, passed to his everlasting rest at his home at Whitehall in this county, and was buried in Cloverdale the following Wednesday. A few months since he was attacked with la grip pe followed by pneumonia and notwithstanding the best medical aid and attention he failed to recover.

The subject of this sketch was born in Perry County, Illinois, January 22, 1837, and was the last survivor of six brothers and two sisters. He, with his brothers—the late Thomas and Richard Rushing, came to California at an early date, and engaged in mining in Eldorado county where they remained until 1869 when they moved and settled at Navarro Ridge in this county. A few years afterwards he went to Georgetown, Eldorado county and engaged in the stage business where he remained several years. For the past six years he has been a resident of Whitehall.

The Rushing families of Navarro Ridge, one and all, were highly esteemed and respected in their communities, and throughout the county and were at all times fully responsible in all their business transactions and other dealings. A Friend.

Notes From Boonville

Boonville, Feb. 24—Though off to one side, we have been having a good time this winter in spite of the rains. The Foresters have been giving enjoyable dances, and Johnson still gives dances every other Saturday night at Philo.

We understand that Frank Brown has been instructing the song birds of Philo in note singing. We have not had the pleasure of hearing them yet, but it is reported that there are several Caruso's among the gentlemen, and of course all the ladies aspire to be prima donnas. We hope they will give us a chance to hear them soon, that we may judge for ourselves.

Miss Madge Brown gave a school entertainment two weeks ago at her school at Philo. The programme was reported to be excellent and well rendered.

Last Friday night a concert was held at th Philo M. E. Church. We understand it was a success financially and socially. It was given by the Ladies Aid Society, who are preparing for a fair to be held about the first of May.

A Tribute To Myrtle V. Clark

Mrytle V. Clark, who, last week passed into the Great Beyond, was born in Ukiah valley twenty years ago. She has always lived on the home place near Russian river, having been a pupil of the Mill creek school. Later she graduated from the Business college conducted by Mr. Mathews, then attended Mrs. Porterfield's normal school and was granted a teacher's certificate a year ago.

She taught the spring term in the Cahto school and was so well liked that she returned to teach the following term which ended in November. Miss Myrtle was a member of the Christian church and had a host of friends. The illness that took our young friend from us was of five weeks duration, through which time she suffered greatly. An implicit faith in her Savior sustained her and helped her to bear it all bravely and cheerfully.

Let us say with the poet, "She is not dead, she is just away."

A Friend.

Card of Thanks

To the many kind friends who so kindly assisted us during the illness and at the death of our beloved daughter and sister, we wish to extend our heartiest thanks.

Mrs. E. L. Clark and family.

DEATH OF MRS CHARLES LUCE

Helen Mar Cutts Luce, the daughter of Maj. James Cutts, passed out of this life at a little after midnight Sunday, February 23, 1908. She was born in the town of Industry, Franklin County, Maine, April 1st, 1838. She came to California by the way of Panama in October, 1865 and was married to Chas. Luce in Placer county, April 7th., 1856. They settled and lived in eastern Sutter county until the autumn of 1877. Then they moved to Mendocino county, and settled on what was known as the Henry place one half mile below Ukiah where they have lived since. Being converted in early life she joined the Methodist church and lived a member till the time of her death.

She was the mother of eight children—having been married twice. One child died in infancy, the others still survive her. Carl H. Viles, of Ukiah, Mrs. Nellie Boulware of Woodland, and Mrs. Annie Jamison of Mendocino are the children of the first marriage. Mrs. Kate Luce of Yreka, Mrs. Jennie Hensley and Marvin Luce of Ukiah, and Mrs. Sadie Norris of Laytonville are the children of the second marriage. There are fifteen grandchildren and three great grandchildren, and one brother and sister living. She was an earnest Christian worker, having been one of the charter members of the Ladies' Aid Sociey of the M. E. Church, South, and always taking an active part in all religious and charitable work. She was an affectionate wife and loving mother and the hungry or destitute were never turned empty from her door.

It can truly be said that as a wife, in the training of her family in the church, in the social circle, she always did her duty nobly and was an ornament to society. Being fully prepared for another state of existance, she passed on now to enjoy the reward of a life well spent on earth. Our loss is her gain and although her presence will be missed from among us, her influence will live for many years.

"Blessed are the dead which die in the Lord from henceforth: Yea, saith the Spirit, that they may rest from their labors; and their works do follow them."

HIGH SCHOOL NOTES

On account of the Citrus Fair at Cloverdale, Friday, school was dismissed for the afternoon, and the Lyceum program was held Thursday afternoon instead of Friday. A very interesting debate was given, "Resolved that women should be allowed to vote." The affirmative was represented by Bulah Johnson and William Chessal and the negative by Chester McKay and Winnie Atkinson. Of course the negative won, as we all know that women should not vote; but nevertheless the affirmative put up an argument that would have done credit to a professional.

Remember the basket ball association has obtained Madamoiselle Bertha Lizza to tell fortunes on the 29th at York & Cleland's hall. The admission will only be 10 cents and tickets can be obtained from almost any of the students. Wool Wanted

We are sold out on scoured wool, and could sell more if we had it.

The mills are finding out that our grades are honest and that our wool spins right, and are looking for more of the same kind.

There has been much cheating of mills going on by adulteration, mixing faulty and defective wools, and the mills are tired of this.

We have scoured and shipped East as much California Fall wool as all other dealers combined, yet every pound is sold and growers have their returns.

Another line of scoured wool will be made up soon. If you have any, ship promptly to CENTURY MERCANTILE CO., WEST BERKELEY. Advances made if desired.

Send shipping receipt and address mail,

Strong Soup.

In the life of William Stokes, written by his son, it is told how Stokes was sent over to Dublin during the great famine to show the people how to make soup. Stokes asked a starving beggar why she did not go and get some of the soup that was being freely distributed.

"Soup, is it, your honor? Sure, it isn't soup at all" "And what is it, then?" inquired Stokes. "It is nothin', your honor, but a quart of water boiled down to a pint to make it sthrong!"

This is the soup maigre which Hogarth caricatured in his picture of the French troops at Calais.—London Standard.

Daffodil Poisoning.

A large number of plants which are usually looked upon as harmless possess poisonous properties, says the Dundee Advertiser. Those who are employed in picking daffodils and narcissus frequently suffer severely from a troublesome skin affection known as "daffodil poisoning." The most trying feature of this ailment is the small gatherings which form under the finger nails. It is said that minute crystals of lime exist in large numbers in the juice of the stems of the pretty blooms and that these are responsible for the poisoning. Regular daffodil pickers are accustomed to rub their hands with oil and work tallow in underneath their finger nails before beginning their work. The bulbs of the white Roman hyacinth have similar unpleasant properties.

With Thanks.

John Budd was a most sedate, precise and altogether exemplary young man. When he wooed and won Susan Smiley, the belle of the village, everybody rejoiced at John's good fortune. However, he bore his triumph with modesty and decorum until the day of the wedding. Then for one awful moment his air of aplomb failed him. When the officiating clergyman asked, "Will you, John, take this woman to be thy wedded wife?" John responded blushingly, "Yes, please."—Harper's Weekly.

The candidate for the degree doctor of letters must write one thesis in Latin, the other in French. If in the scientific department, the thesis must be on some original investigation; if in theology, the examinations are both oral and written.—School Bulletin.

Mr. Barrie's Page.

J. M. Barrie, the popular novelist and playwright, glorified tobacco more than once, but on a certain occasion he tried to induce a smoker to desist. It happened thus:

Mr. Barrie returned to his rooms one day and discovered his page boy puffing hard at a dirty clay pipe.

"My boy," said the novelist, "it is very bad for you to smoke that coarse black twist. You will make yourself old before your time."

And so he went on till he had delivered a long and what he believed to be a telling lecture. A day or two later the youth left without giving notice, and shortly afterward Mr. Barrie brought some friends to his flat. Promising them a special treat, he went to a cabinet where he kept a store of very choice cigars. You can imagine his chagrin when he discovered that the cigars had vanished, and in their place was the page boy's clay pipe and the following note:

Dear Sir—I agree with you that it is bad for a boy to smoke twist. I will not smoke any more twist till I have finished your cigars.

Farsighted Economy.

Mrs. Wipedunks — Jenkinson, we ought to take one of the first class magazines. It's only $4 a year, and the children are getting old enough now to have something good to read.

Mr. Wipedunks—Only $4 a year! That's all, is it? If you begin on magazines you'll think you have to keep it up. At the end of every year you'll want to have 'em bound. There's two volumes in a year. Costs $1 a volume for binding. That makes $6 a year. In ten years it's $60. Then you'll want a bookcase to hold the twenty volumes. That'll cost about $25 because you'll think it ought to be big enough to hold the twenty more volumes. There's $85 thrown away. Do you think I'm made of money? If you want to read the magazines, what's the matter with borrowing 'em?—Chicago Tribune.

COOLNESS IN DANGER.

Experiences of an English Military Official In India.

When Lieutenant Henderson was captured by the natives of the Gold Coast hinterland they got into a wordy discussion as to how they would kill him. The victim listened awhile till he was weary of it. "Oh, well," he said, "I can't be bothered with your arguments! I'm very sleepy. Let me know when you have made up your minds." And off to sleep he went. The unexpected performance saved his life. His calm indifference persuaded Samory's men that they had to do with some one of immense importance. Unwilling to take on themselves the responsibility for his death, they sent him unharmed to Samory's court, in the Jimini country.

Once again Lieutenant Henderson saved himself by a like exhibition of courage. He found Samory on a throne, surrounded by 4,000 warriors, yet when motioned to do homage on his hands and knees he did nothing of the sort. He simply sat on the throne beside Samory, shaking that monarch warmly by the hand. Thanks to this, and to nothing else, he was accepted as the representative of a great sovereign instead of a captive doomed to death. He talked to Samory of the queen, and Samory talked to him. Thus a mission which might have ended, as so many African missions have ended, in a terrible silence and a suspicion of unspeakable horrors, did, in fact, end in a valuable basis of future relations between Great Britain and a Mohammedan power.—London Scraps.

Power of Habit.

The power of habit was strikingly illustrated not long ago in a shirt waist factory. One woman who had done nothing but sew up the seams of sleeves for four years was taken off that particular job and was asked to run up seams in the body of the waists. She complained that the change made her so nervous that she could not work.

"But what is the difference?" asked the foreman. "There is nothing but a straight seam here, just the same as you have been used to."

"I know," replied the woman with true feminine logic, "but it isn't sleeves."

And it did indeed prove to be a fact that owing to her four years of steady work on sleeves it took her fully that many weeks to overcome her nervousness sufficiently to run the machine at her accustomed speed when sewing another part of the waist.—Exchange.

Amended.

A Pennsylvania divine formed one of a house party in Philadelphia where the younger son, in accordance with what the clergyman observed to be his constant habit, as soon as he had seated himself at breakfast immediately possessed himself of a large slice of bread, the quality of which he proceeded to test by a liberal mouthful.

The minister, a stickler in such matters of propriety, gazed blandly at him for a moment or so; then he folded his hands and closed his eyes in preparation for grace.

"For what we are about to receive," he intoned, with painful emphasis, "and for what our young friend has already received, Lord, make us truly thankful."—Harper's Weekly.

The Greed For Gold.

"It's a deplorable thing, this greed for gold," said the mournful person.

"Of course," answered Mr. Sirius Barker. "If the greed for gold were not so general you and I might have a chance to get some. It's a case of too many people recognizing a good thing and trying to get in on it."—Washington Star.

Phenomenon Explained.

A comparatively young man whose mustache remained jet black while the hair on his head turned white explained the phenomenon by saying it was because his lips enjoyed all the good things of life and his head had to suffer all the troubles.—New York Sun.

The Strange Part.

"Isn't it strange that so few men discover the secret of success in life?"

"Yes, but it's stranger still that the secret is still a secret. Surely some of the men who discovered it must have told it to their wives."—Philadelphia Press.

Warden Yell and the Convicts

When Warden Yell left Folsom prison, to make room for Warden Reiley, the prisoners asked as a special favor that they might leave their work long enough to bid him goodby, and, of course, their request was granted. So they came to him; men who had committed crime, men who had walked in evil ways, men whose deeds had put them behind stone walls and iron bars, and I am told that more than a few of them cried like children because he was going from them. One great, stalwart fellow whose prison record formerly was not of the best dropped his head for a moment on Mr. Yell's shoulder, and sobbingly said, "Warden, we can't let you go! You have been making MEN of us, and we need you," and nothing could have been more evident than that this man voiced the unspoken sentiment of many another. The scene was inside the walls of a prison, but in its appeal to the best in human nature it might have taken place within the white walls of heaven.

Now then, I say that the "fireing," as a matter of politics, of a man who was doing so good a work for men who, God knows, need good work done for them, was nothing less than a moral crime. It is not so recognized by statutes, but statutes recognize many a crime which is vastly less serious in its consequences than this easily may be. I do not wish to write a word which could in any way be construed as an advance criticism of Warden Reiley, but, whatever he may turn out to be, it is none the less an outrage that so splendidly helpful a man as Yell was dropped, as a part of the game of politics; and, for that matter, the chances are mightly big that no successor whom that game might have given us would have been the equal of Yell, for it is only occasionally that nature specially designs a man for a special job. There is an old saying to the effect that it is not wise to stop to swap horses in midstream; but what about the person who not only stops there to swap horses, but exchanges an unusually good one for one of which he knows practically nothing? Ah, the breed of politicians has committed many a scurvy deed against the welfare of the public, but rarely does it perpetrate so rank a moral crime as this for which it made itself responsible in ousting one who is admitted to be the best warden that the strate of California ever knew.—A. J. Watrehouse in Sacramento Union.

IT now looks like Taft will be nominated by the Republicans and Bryan by the Democrats. That will make a straight out issue, the one being the sham and the other the real. These two gentlemen made several campaign speeches each during the Oklahoma campaign, and Bryan's policies were sustained by the people by over 100,000 majority, despite Mr. Taft's opposition. Taft is getting weaker each day. The labor people are out against him on account of his record and the army and navy people are said to be against him on the quiet. Bryan has given Taft a new name, "The Great Postponer," which more than anything else reflects the character of the War Secretary. That Bryan will beat him to a stand still is now the general opinion of those in a position to judge of the result.

THERE is a great fight on between the colored Republican office holders and the white Republicans in the south, and in many states two contending sets of delegates have been selected. It is stated that the colored Republicans are demanding more recognition and want Booker T. Washington nominated for Vice President on the Republican ticket. The white Republicans of the south are opposing the movement.

UNITED States Senator Gore, of Oklahoma, is making a name for himself already. He was like Jeff Davis, he did not propose to wait several years before being heard, so he addressed the senate the other day on the financial stringency, and Republican hypocrisy. In a scathing speech he gave utterance to the following: "In Cleveland's administration 46 banks closed their doors and it was called a panic; in Roosevelt's administration all the banks closed their doors and it was called a holiday." How is that for killing sarcasm?

IT is certainly hard to please the graft crowd in San Francisco who are opposing the prosecution of the grafters. During the campaign they yelled themselves hoarse because they thought Abe Ruef was to be granted immunity. Now that Ruef is to be tried and punished these self same fellows are crying because Ruef is going to be tried. It is hard to please those who are afraid they will get caught in the drag net.

OUR neighboring city, Lakeport, is taking a step forward for beautifying the city and advancing its interest. At a recent meeting of the board of trustees of that city it was decided to macadamize Main street for its full length and to install concrete curbings and gutters. Surely our sister city is alive to the demands of the present day. Let Ukiah get into line and follow the example.

THE country girls have the town girls beaten a whole block. The town girls have been using sandpaper garters to make that rustle, but the country girls have dropped on a better thing. They use bunches of striped corn husks, which produces an almost perfect imitation of the finest silken petticoat. None of your business how we know—Ex.

AN eastern exchange states: "That inasmuch as graftirg is declared to be no crime in California, many a man in Sing Sing will regret that he did not go west when a boy."

WITH the advent of spring close at hand it is not unreasonable to suggest that property owners should add to the natural beauty of our city by improving and beautifying their properties. Clean up the yards; add in every way you can to the attractiveness of our city. This promises to be a banner year for home seekers and we must be up and stirring.

THE CITRUS FAIR A GRAND SUCCESS

The excursion from this city last Friday to the Citrus Fair to Cloverdale was largely attended. A train consisting of sixteen coaches was filled with the pleasure seekers. Willits and other stations north of here contributed 120 excursionists, Ukiah added 780 and a number joined at Hopland, making over 1000 visitors to the Orange City from Mendocino county.

The weather was perfect—it was such a day as only we people of Northern California can have. The excursionist were very orderly—no drunkenness being observed during the day. Even the Indians were on their good behavier, being unable to buy liquor in Cloverdle.

The exhibits in the immense pavilion of the Fair association was all that had been claimed for it. The display of citrus fruit far surpassed any previous exhibit heretofore given. The design of a lighthoue, built up of oranges, attracted much attention. It will be news to state that all the oranges used in this exhibit were grown on the Moyle place on Russian river in Mendocion county. The exhibit of the spineless cactus—the creation of Luther Burbank attracted much atteniton.

The officials of the fair as well as the citizens of Cloverdale put forth every effort for the amusement and entertainment of their visitors. Everyone was loud in their praise of the fair and the treatment that was accorded them.

For City Marshal

Bert H. Miller announces his candidacy for city marshal in this issue of the Dispatch. Mr. Miller was the executive officer of the city for over a year and attended to his duties in a very satisfactory manner. He is quite a sleuth and ought to make a good marshal, having all the elements in his make up necessary for the position.. He is well known and violators of the law dread him. The announcement will be found in the proper column.

Aerial Road for Lumber

One of the greatest feats of engineering ever attempted in this section is the building of an aerial tramway, four and a half miles long, from the Independent Lumber Company's mills on the Gualala river to Fort Ross, to haul lumber from the mills to tidewater, where it can be loaded onto vessels. The tramway will cross the Gualala river and span several deep canyons. County Surveyor Winkler has returned from Gualala, where he completed the survey for the erection of the tramway.—Reveille

A great treat in store at the Orpheum Show to night under the direction of Miss Irene Hildreth.

Supervisor Lawson came over from Boonville this week where he had been for ten days looking after the roads in that section. He left Tuesday for the southern part of the county to attend to business. He has all of his roads in good condition and is making an excellent official.

Attorney W. L. Jenkins returned the first of the week from a business trip to Greenwood and that part of the south coast. Walter is building up a nice legal business, and is giving careful attention to all matters intrusted to his care.
